

## ***COVID-19 POLICY***

*SUMMER 2021*

The health and safety of our staff, huskies, visitors, and community have always been our top priorities. We have implemented enhanced policies to ensure the safety of our guests and staff. We kindly ask our guests to follow these precise guidelines to keep everyone safe and healthy.

---

### ***MASKS***

Masks are **required** for all guests and staff at Trail Breaker Kennel. Guests and staff must properly wear masks over their nose and mouth throughout their time with us.

### ***EXPOSURE GUIDELINES***

We require all out of state guests to have completed the proper State of Alaska COVID-19 travel guidelines before their arrival.

### ***GENERAL HYGIENE***

Guests are asked to cough and or sneeze into their elbow and use hand sanitizer after doing so. Guests are encouraged to use hand sanitizer throughout their time with us. Complimentary hand sanitizer will be available for use in all tour areas.

### ***PETTING OF DOGS***

The health and safety of our huskies is a top priority. The CDC suggests limited contact with pets and humans from different households. However, we understand this is hard to do during a kennel tour. Therefore, we require guests to use hand sanitizer before and after petting our huskies. Complimentary hand sanitizer will be available for use in all tour areas. If guests are wearing clean gloves, they will not be required to apply hand sanitizer.

### ***SANITIZING PRACTICES***

Enhanced cleaning and disinfecting practices have been implemented at Trail Breaker Kennel, including but not limited to disinfecting of work and tour surfaces, equipment, tools and machinery, and communal areas. Enhanced cleaning and disinfecting of high-traffic and high-touch areas have been implemented. All tour areas and items are cleaned and disinfected, following CDC guidelines, before and after every tour.
